

## **Exhibit C Booking Procedure TTF**

**EnergyStock B.V.**

## **Introduction**

Terms written in italic in this *Booking Procedure TTF* shall have the same meaning as described in the *General Terms and Conditions Flexibility Services TTF*.

This *Booking Procedure TTF* is the procedure used by *EnergyStock B.V.* for the processing of *TTF Flexibility Services* requests of *TTF Customers*. For auctions a different procedure can apply and will be described in the relevant auction documentation.

### *Booking request by a TTF Customer*

Any party that has fulfilled the conditions of how to become *TTF Customer* as described in *Article 2*, can submit to *EnergyStock B.V.* an enquiry regarding the applicable tariff for a specific amount of *TTF Flexibility Services*. This enquiry can be submitted by means of an email and contains the requested *TTF Flexibility Services*, the requested *Start Date* and the requested *End Date*.

Based on this enquiry *EnergyStock B.V.* will inform *TTF Customer* by sending an email regarding (partly) acceptance or non-acceptance of the enquiry proposed. After *Parties* have reached an agreement regarding the enquiry and tariff, the applicable *Flexibility Services Contract TTF* can be agreed upon and will be sent to *TTF Customer* by *EnergyStock B.V.* Any other document for enquiry will not be accepted by *EnergyStock B.V.*

It is preferable to start the process of becoming a *TTF Customer* well in advance of the date on which *TTF Customer* wishes to start using *TTF Flexibility Services*. *EnergyStock B.V.* needs up to 10 *Business Days* to complete the process of granting an interested party the status of *TTF Customer*.

*TTF Flexibility Services* can be booked with a *Contract Period* of one or more *Years, Months, Weeks* or *Days*.

The *Tariff* component T2 is a fixed consideration, unless stated otherwise in the *Flexibility Services Contract TTF*. However, either *Party* can request for T2 to be a variable consideration. The choice for T2 to be a variable consideration shall be a result of consultation and negotiation between *TTF Customer* and *EnergyStock B.V.* The choice for either a variable or fixed consideration shall be applicable to all current and future services contracted by *TTF Customer*. This includes, but is not limited to, services bought through a *Flexibility Services Contract TTF*, *Transfer of Usage*, *Transfer of Capacity* and *auction*. Switching between a variable consideration T2 and fixed consideration T2 is only possible for the entire portfolio of *TTF Customer* and requires the consent of *EnergyStock B.V.*

The processing of booking requests and the *Flexibility Services Contract TTF* will be done by the *Front Office/Back Office* department of *EnergyStock B.V.*

*EnergyStock B.V.* will check if:

- The *TTF Flexibility Services Contract* is fully completed and signed by *TTF Customer*.
- The requesting party fulfils the conditions of becoming a *TTF Customer*, which includes that *TTF Customer* is sufficiently creditworthy for the capacity ordered.
- The requested amount of *TTF Flexibility Services* is available.

Only if all these conditions are met, *EnergyStock B.V.* will accept the *Flexibility Services Contract TTF*. If one or more of the conditions are not met, *EnergyStock B.V.* will reject the *Flexibility Services Contract TTF* and inform the requesting party about the reasons for the rejection.

Upon receipt by *EnergyStock B.V.*, a *Flexibility Services Contract TTF* completed and signed by the requesting party establishes a binding declaration of such requesting party to enter into an agreement as specified in the *Flexibility Services Contract TTF*. If a *Flexibility Services Contract TTF* is accepted and successfully processed, *EnergyStock B.V.* confirms the booking by countersigning the *Flexibility Services Contract TTF* and returns a copy to *TTF Customer*.

The Front Office/Back Office department will only process a *Flexibility Services Contract TTF* on *Business Days* during office hours, being from 8:30 hours *LET* to 17:00 hours *LET*.

*EnergyStock B.V.* provides information on its *Website* on the availability of *TTF Flexibility Services*. This information is indicative only, and no rights can be derived from it. A completed *Flexibility Services Contract TTF* reduces the available *TTF Flexibility Services*. The *TTF Flexibility Services* information on the *Website* will be updated after each *TTF Flexibility Services* booking.
